Sadati Fred Mwasongwe

Biomedical Engineer · E-commerce Manager & Reports Specialist

Open to roles worldwide · remote or on-site · sadatimalk50@gmail.com · linkedin.com/in/sadati50 · github.com/SADAT-100

PROFILE

Biomedical Engineering graduate (CGPA 4.28/5.0) with hands-on hospital experience in preventive and corrective maintenance, electrical safety testing and calibration of critical care equipment, plus exposure to radiotherapy systems (LINAC and brachytherapy). Trained at King Abdulaziz University Hospital and currently E-commerce Manager & Reports Specialist at Inhouse & Back Comfort. Registered Graduate Engineer with ERB Tanzania. Open to biomedical engineering roles and to e-commerce roles in channel and account management, reporting and data entry, remote or on-site. Detail-oriented, quick to learn and comfortable with procurement, ERP systems and AI-assisted reporting.

EDUCATION

Bachelor of Science in Electrical Engineering (Biomedical) Jan 2019 – Apr 2025

King Abdulaziz University · Jeddah

CGPA 4.28 / 5.0 (Very Good) · Medical Instrumentation, Clinical Engineering, Healthcare Technology Management. Recognised in Tanzania by TCU.

EXPERIENCE

E-commerce Manager & Reports Specialist 2024 – Present

Inhouse & Back Comfort · Commercial Operations · Part-time / Contract

- Managed online sales channels, pricing strategies and operational issues to support profitability and growth.
- Assisted with procurement and inventory management for a smooth, reliable supply chain.
- Developed automated dashboards using AI tools to track marketplace performance, sales reports and operational bottlenecks.
- Managed CRM systems and built strong working relationships with vendors and partners.

Biomedical Engineering Trainee Jan 2025 – Mar 2025

King Abdulaziz University Hospital (KAUH) · Biomedical Engineering · Training

- Attended specialised sessions in the Radiotherapy Department with senior engineers, focusing on LINAC (linear accelerator) and brachytherapy systems.
- Assisted in preventive and corrective maintenance (PPM/CM) for ventilators, patient monitors, infusion pumps and ICU monitoring systems.
- Gained hands-on experience with hospital utility systems, including RO water treatment plants and operating-room devices.
- Performed electrical safety testing and calibration using Fluke electrical-safety analysers to support regulatory compliance.
- Rotated through ICUs, Radiology, Laboratory, CSSD, Outpatient clinics, Operating Rooms, Dialysis and medical gas systems, documented in a 41-page training report.
- Awarded the KAUH Certificate of Completion in Clinical Engineering Training (19 Jan – 19 Mar 2025).

SKILLS

Biomedical Engineering	Preventive maintenance (PPM), Corrective maintenance (CM), Calibration & electrical safety testing, Radiotherapy equipment (LINAC, brachytherapy), ICU & critical care equipment, Clinical engineering, Medical procurement basics
E-commerce & Marketplace Operations	Online marketplace management, Pricing strategy, Channel issue resolution, Marketplace management systems
Business Operations	Procurement & inventory, CRM systems, ERPNext, ClickUp, Vendor & partner relations
Data Analysis & Reporting	Microsoft Excel (advanced), Google Sheets, Dashboards & reporting, Microsoft Project, MATLAB
Web Development & Programming	HTML & CSS, JavaScript, Python, C++ (Arduino / microcontrollers)
AI-assisted Development & Automation	AI tools for technical problem-solving, AI-built dashboards, Workflow automation, Advanced email automation, AI & machine learning foundations
Professional Communication	Team leadership, Relationship building, Cross-cultural collaboration, Professional correspondence, Reporting & dashboards, Detail-oriented & fast learner

PROJECTS & ACHIEVEMENTS

- **Certificates of Excellence (×3)** — Academic excellence · BSc Biomedical Engineering
- **Certificate of Registration · Graduate Engineer** — Engineers Registration Board (ERB), Tanzania
- **Recognition of Award** — Tanzania Commission for Universities (TCU)
- **Clinical Engineering Training** — King Abdulaziz University Hospital (KAUH)
- **Python Basics** — University of Michigan · Coursera
- **Smart Walking Stick** — An assistive cane with ultrasonic sensors and haptic feedback for people with visual impairments.
- **Integrated Health Monitoring System** — A chest-worn wearable that non-invasively monitors blood pressure, body temperature and blood glucose trends, and sends the readings to a mobile app.
- **Low-Cost Long-Range Wi-Fi System** — An affordable outdoor system that carries Wi-Fi over long distances using a 24 dBi square-grid parabolic antenna, a Wi-Fi extender and low-cost RF parts.

WEBSITES & TOOLS I BUILT

In-House Careers (recruitment portal) · **IELTS 7+ Study Pack** (learning site) · **FECPA Audit Control Center** (audit tool) · **Extra Channel Portal** (reporting portal) · **Noon Reports Portals** (reporting portal) · **Inhouse Marketplace Hub** (internal launcher) · **Whiskers Media Team Hub** (team guide)

LEARNING & ACTIVITIES

- **AI Data Science modules** (KAUST) — Introductory modules covering AI applications and machine learning.
- **CEIES programs** (CEIES) — Programs focused on artificial intelligence engineering systems.
